

THE FIVE-STAR VENDOR EXPERIENCE

Maximize Your MEDITECH Investment

Beacon Partners is a leading provider of consulting services in the areas of information technology, business and clinical operations management, strategic advisory services, and technical solutions to MEDITECH clients throughout the country.

Our consultants possess in-depth MEDITECH system knowledge, along with operational healthcare expertise gained from experience as senior employees of hospitals, information system vendors, healthcare providers and various other healthcare organizations. We offer expert assistance to enable your healthcare enterprise to maximize the functionality of the MEDITECH system and give you a competitive advantage.

We have been engaged by MEDITECH clients to provide a variety of services ranging from system implementations and upgrades to custom programming. We offer objective project management and interim management services to any MEDITECH project your healthcare enterprise may have. Beacon Partners provides proven solutions to enhance your investment in the MEDITECH system.

THE BEACON PARTNERS PROCESS

Each Beacon Partners consulting service incorporates expertise in five key process areas... Vision, Workflow Integration, Communications, Change Management, and Measurement.

By providing insightful thought leadership and execution in each of these processes across each of our services, we help you achieve the optimal alignment of people, processes, and technology across your entire enterprise.

OUR FOCUS IS ON YOUR SATISFACTION

Beacon Partners has provided professional consulting services to over 500 healthcare organizations committed to maximizing the quality and effectiveness of their medical services. Now it's your turn.

We approach each engagement with a customized methodology designed to meet your specific objectives. We do so by focusing on people, processes, and technology. We're so confident in our one-of-a-kind approach that we even guarantee your complete satisfaction.

Contact us today to learn how Beacon Partners can help you identify, implement, and optimize technology in ways that will maximize your organization's **ENTERPRISE YIELD™** and provide the best patient care possible.

**FOCUSING ON PEOPLE, PROCESSES,
AND TECHNOLOGY TO MAXIMIZE ENTERPRISE YIELD™.**

"I have been impressed with Beacon Partner's ability to cover such a vast range of consulting needs within Fauquier Hospital. Our consultants have ranged between Project Managers, Technical Experts, and overall well-rounded consultants with the ability to manage a variety of project and software responsibilities. With the caliber of resources available, and our positive experiences to-date we will continue to look to Beacon as our premier staffing resource."
